

Custom Vinyl Railing

For Your Porch, Balcony, Deck or Stairs

Stylish and Maintenance Free

Custom Vinyl Railing

Custom vinyl railing from Mercury Excelum is the perfect solution to add maintenance-free railing to your porch, balcony, deck or exterior stairs. An array of styles is available to suit every taste and budget. Choose the color of your railing along with a variety of accent caps, decorative balusters, structural porch posts, post wraps and other accessories to complement any decor.

Tailor Made Just for You

Mercury railing is custom manufactured and pre-assembled to fit the specific dimensions of the space in which it is to be used. Why force-fit precut 6 or 8 foot sections when you can effortlessly install sections custom made for your use? Our customized railing system ensures proportional sections and even spacing of your posts and pickets without any special measuring required!

Easy to Install

Mercury railing leaves our plant fully assembled according to your precise specifications. No cutting or assembly needed. If you provide a layout of your railing, we can premeasure and drill your post sleeves to make installation virtually error-free. Rugged low profile mounting brackets facilitate installation for every application whether new construction or remodeling. Our railings install in less time than boxed kits and the customization assures that there is no waste. You use exactly what you pay for!

Safe and Carefree

The perfect alternative to wood, Mercury vinyl railing is made of a high quality, non-toxic vinyl material that eliminates chemical treatments, lead-based paint and preservatives. UV protection helps resist color fading, the surfaces are easy to clean and you never have to stain, paint or seal them. Further, rot, rust, splinters, discoloration and sharp surfaces are no longer a concern because the vinyl material eliminates problems that result from wood, wire or wrought iron. The rigid aluminum reinforcement assures a durable railing system that will withstand everyday use.

Railing systems by Mercury Excelum, Inc. are in compliance with International Building (IBC) and International Residential (IRC) Codes. ADA compliant handrail is also available upon request.

Limited Lifetime Warranty

Our railing is listed with the ICC-ES as designated in reports ESR-1850 and NER-705. The limited lifetime warranty on this product assures you worry-free enjoyment of your rail for years to come.
