

Bay & Bow Windows

Open Up Any Room

A Whole New Look Inside and Out!

Bay and bow windows from Mercury Excelum add grace and charm to your home's exterior while providing elegance and spaciousness to any room. Our bay and bow windows combine traditional style with the convenience of maintenance-free vinyl that requires no scraping or painting and assures that your windows will not rot, chip or peel.

Design options are endless – combine double hung, casement or picture windows to create your ideal look! Wood mullions complement any interior and are available to match cherry or oak woodgrain windows. Heavy-duty, furniture-grade, oak or birch veneer head and seat boards are built into every window to provide exceptional strength, beauty and durability.

Design Features of the Bay and Bow Windows:

- Multi-chambered frame and sash construction provide ultimate energy efficiency.
- Insulating glass reduces outside noise and delivers excellent thermal performance. LowE glass or other high-performance glazing options are also available.
- Fusion-welded sash and frame corners provide increased strength, durability, structural integrity and leak-free performance.
- Advanced dual weatherstripping assures a long-lasting weather-tight seal.
- Quality hardware ensures a lifetime of trouble-free operation.
- Options include: cable support, knee brackets, insulated seat board, lighting, interior casing and roof system.

Bay Window Features:

- Available in 9°, 15°, 30° or 45° angle configurations with double hung or casement flankers providing a variety of looks from colonial to contemporary.
- Custom sizing and extended jamb depths for a beautiful fit in virtually any architecture.

Bow Window Features:

- Custom made to your exact width and height requirements in 9° or 15° angle configurations and 3, 4, 5, or 6-lite combinations.
- Special locking system with the uncluttered look of one-handle operation (casements only).

High-Performance Glass

For higher energy efficiency, select a high-performance glass system for your new bay or bow window such as LowE glass or other glazing options to create an Energy Star® qualified window. Your Mercury Excelum window dealer can assist you in selecting the features to make your windows meet your energy efficiency requirements.

Quality Built Into Every Window

Since 1953, Mercury Excelum has manufactured windows in a state of the art facility in Connecticut. Our windows are made from virgin vinyl assuring you the highest quality window. All Mercury Excelum windows are covered by a limited lifetime warranty, ask your dealer for details.
